

# WELCOME

## SHENZHEN YIPIN TECHNOLOGY CO., LTD.

# BRAND HISTORY

After years of development, Pureatomist has long enjoyed a high reputation in the vape industry. In order to cater to the popular trend of the vape market and the massive needs of global users, we have created a new brand APEX, with the purpose of providing vape users worldwide with exquisite, fashionable and super-class flavored vape products.

So far, a series of disposable vape items we have launched have received positive feedback from dealers, importers, wholesalers, distributors and retailers around the world. Especially in the Americas, Europe, the Middle East, Southeast Asia and other regions, many well-known vape brand companies have established long-term customized partnerships with us. The joining of these customers makes us gratified and proud.

In the next few years, the APEX brand will consistently put user experience and satisfaction in the first place, and launch more and higher-quality products for the majority of vape consumers. I also hope that the majority of vape customers and users will continue to pay attention to us. Because we have every earnestness and dedication to our products, we cannot do without your enthusiasm and support.
